| User/Installer Responsibilities | | | | | | |
| <p>It is important to understand that the existence of this document alone does not automatically constitute authority to install the part/component/assembly.</p> <p>Where the user/installer performs work in accordance with the national regulations of an airworthiness authority different than the airworthiness authority of the country specified in Block 1, it is essential that the user/installer ensures that his/her airworthiness authority accepts parts/components/assemblies from the airworthiness authority of the country specified in Block 1.</p> <p>Statements in Blocks 14 and 19 do not constitute installation certification. In all cases, aircraft maintenance records must contain an installation certification issued in accordance with the national regulations by the user/installer before the aircraft may be flown.</p> | | | | | | |

Paperwork Reduction Act Statement:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number associated with this collection of information is 2120-0018. Comments concerning the accuracy of this burden and suggestions for reducing the burden should be directed to the FAA at: 800 Independence Ave. SW, Washington, DC 20591, Attn: Information Collection Clearance Officer, ABA-20.

It is hereby certified that the material shown herein meets the requirements of all drawings and specifications listed on the above purchase order, including special processes, as applicable. It is further certified that the articles shown herein have been dimensionally inspected and functionally tested, as applicable, and found to meet these requirements. It is certified that the Meggitt (Troy), Inc. Quality Management system meets the requirements of AS9100 and ISO9001 and/or FAA Regulation 21.

Welding, brazing and other special processes required in manufacturing the articles have been performed according to the applicable, current government or industry specifications by certified personnel, as required.

Required surface finish processes have been performed according to the applicable, current government or industry specifications for cleaning and pretreatment, plating, anodizing or alodine, as required.

Substantiating data, including chemical and physical analysis results and inspection and test results, as applicable, are on file and available for inspection or transmittal upon request.

John Peay
Quality Engineer

Meggitt (Troy), Inc. is Certified to AS9100 & ISO 9001. Certificate #CERT-0026982 by SAI Global.
